

LOCAL AND OTHERWISE.

Geo. W. Richards and family of Pahranagat, spent the fourth in town.

Warren & Brown ran a special out to DeLamar Tuesday, well loaded.

For family liquors go to Sam E. Wertheimer.

Both stages on the DeLamar line have been doing a good business of late.

Ed. and Frank Clark were in from the Wilson Creek ranch for the 4th.

Very few drunks, no fights and nobody killed. A quiet and pleasant 4th. this year.

Mrs. Cook, sister of Mrs. Dr. Campbell, is visiting with the Doctor's family, from Eureka, Utah.

The railroad strike and tie-up has cut us off from most of our mail, and the incoming bags are light.

Misses Mattie Sawyer, Jennie Meikle and Clara Warren went down on Tuesday to spend the 4th. at DeLamar.

Miss Annie Clinton spent part of the week in town, taking a short rest from her school at Spring Valley, on account of the 4th.

Lack of vitality and color-matter in the bulbs causes the hair to fall out and turn gray. We recommend Hall's Hair Renewer.

The Bullionville mill is temporarily shut down on account of the lining of brick in the Howell roaster having fallen out. Another start will be made next week.

Considerable interest is manifested of late in telegraphing, and a number of our young ladies have taken it up as a study, all expecting to make first class operators.

Max Schaefer and Joe Conaway came in via the Wash, Monday morning to attend the quarterly meeting of the Board of County Commissioners. Both returned Tuesday.

A. S. Thompson has just received a carload of Salt Lake Beer, also assorted Soda and Sarsaparilla, which he is offering at reasonable figures and delivered free to any part of town.

Panama made no special demonstration on the 4th. A short programme of exercises was carried out, in the grove south of the meeting house building, where the Declaration of Independence was read, and several national airs were sung.

Edgar, Annie and Laura Shier, children of John Shier, came in on Friday stage, having made the trip here from Ogden, without assistance. They went on to DeLamar Monday, where they will remain some time.

Sufferers from chills and fever, who have used quinine as a remedy, will appreciate Ayer's Ague Cure. This preparation, if taken according to directions, is warranted a sure cure. Residents in malarial districts should not be without it.

Warren and Brown began the Hiko mail service Monday, running via Helene. The route from Helene to Hiko will be run by Charley Warren. Mails leaving here on Monday and Friday will reach Hiko the following day at noon, and coming here will get in on Tuesday's and Saturdays.

A telephone box for town use on the DeLamar line is placed in the residence of Mrs. Carman on Lacour St. A box will also be placed in some business house at DeLamar for public use. The tariff for local business has not been made up, and will no doubt depend somewhat on the amount of business transacted.

Denton & Perry entered on their contract of carrying the Milford and Pioche mail, on Monday. Each will perform service on separate parts of the route, Denton plying between Milford and Desert Springs, and Perry between Desert and this place. Good stock and equipments generally, are provided, ready for the anticipated boom for the Ferguson section, and good service to the public is guaranteed.

All the applicants at the recent school teachers examination, passed, and passed creditably. Misses Annie Ronnow and Mary Syphus of Panama, and Charley Thompson and John Deck of Pioche were the applicants, and the examining board reports that the percentages obtained by the various applicants ranged higher than those obtained by any previous class of applicants, all the candidates doing exceptionally well.

Monday at 12:30 p. m. the DeLamar telephone rung in. The first talk from there was made with the wire lying on the ground over the Helene-Jim Crow summit, but it worked in good shape. By four in the afternoon the line was finished practically, and was doing regular business. Tuesday morning a phone for town use was sent down from here and it will be in place in some business house to-morrow. This marks a new era for business in Ferguson district and the hope is expressed that rails will follow next and in the near future.

BLUE OUTLOOK.

The Strike is on Full Force and no Signs of a Compromise.

SALT LAKE, July 5.—Latest reports indicate the strike on the railroads to be completed and no indications of a compromise or settlement of the difficulty is apparent at this time. The situation is becoming decidedly serious. Shortage of coal and provisions generally are beginning to be experienced in this city as well as in other places.

Commissioner's Proceedings.

The Board of County Commissioners held a regular quarterly meeting on Monday last. all the members of the board were present and the following business was transacted: J. B. Atchison complained to the board that one of the main streets of Panama had been fenced up, and asked that the obstruction be removed. Referred to the District Attorney for such action as the circumstances may justify.

Wm. DeFriez and Al Thorne both presented petitions, each well signed, asking to be appointed Justice of the Peace at DeLamar, in the township of Helene. After discussion, Wm. DeFriez was appointed Justice of the Peace at DeLamar, in the township of Helene, and bond placed at \$1000. The bond was prepared and submitted before the meeting adjourned, and was accepted.

A petition by certain citizens, asking that the stones in the highway between here and the four mile house, be removed, was refused.

Two petitions were presented from Helene and DeLamar, asking for the appointment of Jacob Johnson as Constable there. Johnson was therefore duly appointed and bond placed at \$1000, as usual in such cases.

Dr. Bjornson appeared before the board in regard to the matter of appointing a county physician, and the giving of a bond as required at a previous meeting. The minutes of two previous meetings, wherein an appointment was made on bids submitted at about \$5 a month, and a \$5000 security for the performance of the work, were read, and after discussion, the board decided that no further action on their part was necessary in the matter.

The law providing that the registration of voters shall begin on the first Monday in July, the following voting precincts were designated, and registry agents appointed, to-wit: Eagle Valley, E. Lytle, registrar; Meadow Valley Wash, Samuel Kershaw, registrar; Spring Valley, James Rice, registrar; Overton, Ute Park, registrar; St. Thomas, Ed Syphus, registrar; Las Vegas, Wm. Stewart, registrar; El Dorado Canyon, W. S. Mills, registrar; Lake Valley, Peter Edwards, registrar. All Justices of the Peace are registry agents for their several townships.

The following voting precincts were ordered abolished to-wit: Bristol, Highland, Royal City and the Half Moon.

The County Clerk was ordered to supply the various registry agents with the necessary stationery etc., to perform their duties. A list of claims against the county as shown in another column was allowed, and the monthly and quarterly reports of the various county officers were filed and approved.

From the statement of the County Auditor submitted the following transfers of funds were made: From the general to the Indigent Sick Fund, \$25 and from the General to the Officer's Salary Fund, \$164.58. The funds in the county treasury were counted and found correct.

No further business appearing, the board adjourned to the 6th, day of August 1894.

Jim Townsend says: "It is all right to be careful of small things, but it is as well in trying to pick up a nickel not to burst a pair of two dollar suspenders."

The water works supplying cities and towns of the United States are reported to represent an investment of \$430,000,000, nearly one-tenth as much as in railroads.

A soft, fair skin is the result of pure blood and a healthy liver, to secure which, Ayer's Sarsaparilla is the superior medicine. Ladies who rely upon cosmetics to beautify their complexion, should make a note of this, bearing in mind that they can't improve upon nature.

THE FOURTH.

Well Observed Here After All, But With Less Display Than Formerly.

Contrary to general expectation, and despite the dull times, Pioche celebrated the 4th in good shape, and we doubt if our sister towns did more, or enjoyed it to any greater extent than did we. Patriotism ran high but no great amount of money was expended in displaying it.

Up to Monday afternoon no arrangements for any observance or amusement at all had been made, when Ed. Freudenthal put in an appearance from a month's prospecting trip and at once set to work with his characteristic energy to see that the fourth should not pass without some show.

A hall at Thompson's Opera House and a list of amusements to take place on Lacour street in the afternoon with small prizes, were arranged for. Posters were printed and on Tuesday afternoon the Opera House, and Main and Lacour streets, were well decorated with the national colors.

The work this entered upon created an immense amount of enthusiasm among the small boys and yesterday morning a salute of thirteen guns was fired by E. Ewing. In the afternoon on Lacour street a large crowd being in attendance, and thoroughly enjoying the sport, the following amusements came off: Potato race between boys under eight, one prize. Foot race between boys under eight, two prizes. Foot race between boys under thirteen, one prize. Sack race with four entries, one prize. Two horse races and one donkey race. A gun salute also fired in the evening.

With so many leaving town for outside points, no great attendance at the hall was looked for, but all were agreeably surprised in the evening to find the hall well filled, and one of the merriest dances that has occurred here in a long time followed, the amusement continuing until after daylight this morning.

Lincoln At The Midwinter.

A resident of Lincoln County writing from San Francisco says: "Nevada is the only State which has a building of her own at the Fair. All others have their exhibits in the different hotels."

Nevada has the best exhibit of needle work and also the best mineral display. The exhibit of the Experimental Station of Rome is the only one of the kind at the Fair and has attracted much attention.

The sulphur, salt and mica exhibits of the sage-brush state have also attracted much attention and two sales are about to take place through the display of the salt and sulphur from the immense Nevada deposits.

Lincoln county was first at the Fair with figs; they came from the Los Vegas ranch, owned by Mrs. H. J. Stewart. Mr. John Kierman, of Meadow Valley Wash, sent some wine two years old which compares with any that is exhibited, doubt being expressed as to its age, on account of its excellent flavor and quality. The exhibits of the State of Nevada are much better than the general public have any idea of, and much credit is due to Mr. Yerrington for the representation of the State at the Fair. The general countenance of Mr. John Ernest, formerly of Lincoln County, is always met at the entrance of the Nevada building and visitors are shown through by him.

J. Eisenmann wishes to call the attention of those desiring to build, to the fact that he has just received a carload of glazed window sash, all sizes; also panel, sash and screen doors, together with white lead, paints, oils and nails, which will be sold cheaper than ever, but only for cash.

R. G. Schofield, our local artist, has been busy the last two weeks in making a number of sketches of the town and leading mines of Pioche. The drawings are two feet long and take in everything to be seen, looking the four different points of the compass. Any one wishing enlarged or reduced copies can have them from Mr. Schofield at reasonable prices.

The principal telegraph news of the week relates to the boycott inaugurated by the American Railway Union and other labor organizations against the Pullman Palace Car Company. Beginning with a disagreement between the Pullman Company and its employees, at Pullman some twenty miles distant from Chicago, in an effort to increase its working force and to decrease pay, the strike has spread, until on nearly all lines of railroad in the middle, southern and western states, which run Pullman cars, and they all do, engineers, firemen, switchmen and others connected with the operation of the trains have gone out, refusing to handle any train with a Pullman attached to it, and the result is the most stupendous strike ever witnessed in this or any other country.

Traffic is paralyzed, business interests suffer enormously and what the end will be it is hard to foretell. No mails have moved east or west from Ogden for the past four days. The principal feature in the present strike is the ability of a few leaders of labor organizations, for a real or fancied grievance of a few workers, to stop the food and other supplies of cities, paralyze business, and jeopardize the peace and safety of the country in general. This is a question presented now for the first time and it must be definitely settled, and there are not a few who believe that the settlement of it may result in a revolution more appalling and horrible than that of the French Republic years ago, in an effort to correct an accumulation of existing evils.

The cases of Havemeyer and Seales, of the sugar trust, have been duly certified to the grand jury for indictment for refusing to tell the Senate investigating committee about the trust's political contributions, although the Democratic Senators on that committee voted against it and tried to get the Senate to prevent it. There isn't the slightest danger, however, that either of them will be punished; they stand too well with the powers that be.

Awarded Highest Honors—World's Fair.

DR. PRICE'S CREAM BAKING POWDER MOST PERFECT MADE.

Apure Gipsy Candy, Taster's Choice. For 1000 Mils. of Cash, or 1000 Mils. of Goods, 40 Mils. per 1000.

OUR WASHINGTON LETTER.

Correspondence of THE RECORD.

WASHINGTON, June 26, 1894.

That Senator Chandler knew what he was talking about when he stated his belief, a few days ago, that the Whitney syndicate, in which it is known that ex-Governor Russell, of Mass., was lately a guest of the White House, is interested, and believed by many that Secretary Dan Lamont is also interested, had an understanding with somebody by which free coal was to be secured in the tariff bill from the House and Senate conference committee, is now apparent to everybody who is familiar with the under-currents of Democratic waters. And the understanding is with no less a personage than Mr. Cleveland himself, and it includes free iron ore, which a syndicate headed by Andrew Carnegie wishes to profit by, the idea being to establish a great steel making plant somewhere on tide-water, somewhere in Maryland, which will be supplied with Nova Scotia coal by the Whitney syndicate and Cuban iron ore by another syndicate, thus taking bread from the mouths of thousands of Americans engaged in the production of coal and iron ore. Can such an understanding be carried out? That is contemplated is shown by the declaration of Senators Jones and Vest, who are certain to be members of the conference committee, to promise the Alabama and West Virginia Senators when asked to do so that they would stand out to the last against putting coal and iron on the free list. The House, of course, ready to vote for free coal and iron, as it did in passing the original Wilson bill, and unless the Democratic Senators from the states interested shall positively refuse their votes for the bill agreed upon by the conference committee, if coal and iron are put upon the free list, it looks as though the understanding might materialize into a solid fact, the Democratic party in Congress being so largely dominated by trusts and syndicates.

The spirited debate in the Senate on the income tax, while it did not change the forecasted result, did one thing for which the country should be grateful. It removed the mask and exposed the Populists, showing them to all men as they have long been known to few, as socialists. The populist Senators stated in plain words that they did not favor the income tax because of the revenue it would raise, but because they regarded it as the first step towards the erection of the machinery which shall eventually bring about the distribution and the redistribution of wealth, the keystone of the socialist arch, if an iron which teaches to tear down everything and to build up nothing can be said to have an arch.

Ex-paramount Commissioner Hount is in Washington. It is presumed that he came to say to his great and good friend Grover that the people of his state having shown no disposition to appreciate his paramount abilities by electing him to an office he had come to the conclusion that a seat at the federal pie counter would be thankfully accepted. But, horrible to relate, it is said that his great and good friend Grover declined to see him and that he had to content himself with pouring his tale of woe into the ears of private secretary Thurber, whose antipathy toward applicants for pie counter seats is as well known in Washington as the native Georgian love for the juicy watermelon when it is red ripe. Mr. Paramount will not be in danger of getting the summer complaint this season by mixing watermelon with official pie.

The decision of the House election committee to unseat Representative Funston, of Kansas, and seat Moore, the Democratic contestant, was not made on the merits of the case, but arbitrarily and for the sole purpose of injuring the interests of Mr. Funston in this year's Congressional campaign. The meeting will convene at 8 o'clock p. m. Business of importance demands a full attendance.

SENATOR HILL did not succeed either in defeating or getting any amendment modifying the income tax adopted, but he had lots of fun with the Democrats and the Populists. He taunted Senator Harris until the old gentleman was wild with rage and he held Senator Allen of Nebraska, and the Populists up to ridicule in a manner that will not soon be forgotten by the pops. Hill did get one amendment adopted, and that was suggested sarcastically—to exempt the salary of the President of the United States from the income tax.

The cases of Havemeyer and Seales, of the sugar trust, have been duly certified to the grand jury for indictment for refusing to tell the Senate investigating committee about the trust's political contributions, although the Democratic Senators on that committee voted against it and tried to get the Senate to prevent it. There isn't the slightest danger, however, that either of them will be punished; they stand too well with the powers that be.

A meeting of the County Central Committee of the "PEOPLE'S PARTY" of Lincoln County, is hereby called for July 14th 1894, at the office of George S. Sawyer, in Pioche, at 8 o'clock p. m. The meeting will convene at 8 o'clock p. m. Business of importance demands a full attendance.

GEO. S. SAWYER, Chairman.

J. A. Clark, Clerk of the Board of County Commissioners of Lincoln County, State of Nevada, hereby certifies the foregoing to be a full, true and complete list of all claims against said county, allowed by said Board on the date above given.

J. A. CLARK, Clerk.
